

SPEECH-LANGUAGE THERAPY SERVICES

Students diagnosed with learning differences or developmental disabilities often present with language disorders. At The Briarwood School, highly trained and licensed Speech-Language Pathologists review and perform case-specific, screenings and evaluations. Individualized therapy programs are provided to remediate communication deficits and promote student success in the classroom.

Students who benefit from Speech-Language Services may display difficulty with the following:

- Understanding written or spoken communication
- Following directions
- Recalling information
- Forming spoken or written language
- Goal setting and organization
- Producing certain sounds or words
- Blending or segmenting sounds during academic tasks
- Social skills during communication
- Stuttering
- Vocal quality

MISSION OF THE SPEECH-LANGUAGE DEPARTMENT

It is the mission of the Briarwood Speech-Language Department to provide therapeutic techniques and research-based services that empower students with diagnosed learning differences or developmental disorders to reach their full potential in the areas of communication and academics.

Briarwood's Speech-Language Therapy Program provides treatment in both individual and small group sessions from two to four times weekly. Collaboration with both parents and teachers is an integral part of the student's therapy intervention. A flat fee is assessed monthly for speech-language therapy services in addition to tuition charges.
